

Restaurant & Hospitality

Your Challenge is to ...

- Increase average transaction in the store and at the drive-thru
- Drive turnover of slower inventory items
- Give the store a sense of community
- Improve the overall customer experience
- Respond to shifts in customer demographics throughout the day and week

Solution

EK3 inPulse products and services provide narrowcasting solutions to meet these challenges. Everything in the EK3 web-based tool is user friendly giving you the possibility to tailor a library of images suited specifically to your needs. Increase your revenue potential with dynamic advertising.

Enhance your corporate branding with local community messages. Entertain the customer and reduce perceived wait times. EK3 inPulse products and services provide an easy to use media solution that will increase your brand awareness and customer loyalty.

Benefits

- Capture your customer's attention and motivate action
- Target your message and speak to what your customer needs to know
- Flexible – It meets your changing environment
- Eliminate the cost of printing and missed in-market dates
- Take control, manage the solution for one location or many
- Reduce overall print clutter at the front counter or/and your menu board
